About the Team

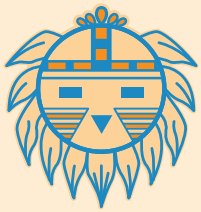

We have a 5 to 1 support staff to doctor ratio, which allows our team to focus on individualized patient care. Every member of our team is Fear Free Certified to provide the

calmest environment for our patients and humans alike. We have a dedicated client liaison position to handle daily callbacks and client communication.

Our priority is to foster a collaborative environment, where case discussion is encouraged, and case management is shared. We hold monthly doctors' meetings that allow us to further collaborate on difficult cases, review medicine, and discuss new literature. Our team environment fosters a unique ability to provide ongoing mentorship, as someone is always nearby to lend a hand.

We frequently organize optional hospital-wide activities outside of work. Past activities have included attending a game of New Mexico United Soccer, Friday night volleyball league, paint and sip night, a company wide picnic, and a family night at the Electric Playhouse.

About the Practice

Aztec Animal Clinic is housed in the historic Nob Hill district of Albuquerque, NM. We were founded in 1990 as a single doctor practice and we now have multi-generational ownership. Our vaulted ceilings and countless windows fill our building with natural light year-round.
